# C3 Data is proud to announce CCPI Europe Ltd. as our exclusive UK & European distributor for our furnace compliance software products

**Indianapolis, IN**:  C3 Data LLC is proud to announce a partnership with CCPI Europe Ltd. for distribution of our furnace software compliance products throughout the UK and Europe.   C3 Data's innovative software solutions are now available for streamlining furnace compliance processes for Nadcap, AMS2750, and CQI-9 for the UK & European aerospace and automotive industries.

*Nathan Wright*, CEO and founder of C3 Data, states "CCPI has a long history of technology innovation in the field of temperature measurement.  This, combined with their highly experienced sales resources in both the UK and Europe, makes them the ideal partner for C3 Data.  We are excited to introduce our innovative software to the UK and European aerospace and automotive manufacturing industry."

*Jonathan Golding*, Managing Director of CCPI Europe, added, "CCPI Europe is delighted to partner with C3 Data to take this technology forward into Europe. CCPI Europe; a Marmon Engineered Wire & Cable / Berkshire Hathaway company, is well positioned to promote this new technology across multiple industries and corresponding applications. Our depth of application knowledge and industry ties in heat treatment and thermal processes in Europe, now with the support of the C3 Data team, will allow CCPI Europe to support this technology in cooperation with forward-thinking customers"

---

**About CCPI:**  Founded in 1984, CCPI Europe provides high quality temperature measurement solutions to the aerospace, automotive, aluminum, and other industries.  They are experts in the fields of manufacturing and calibration of temperature sensors, working in partnership with customers to ensure their customer expectations are exceeded.  http://ccpi-europe.com

**About C3 Data:**  C3 Data provides software products to simplify the furnace compliance process for heat treaters and pyrometry calibration labs seeking to comply with Nadcap (AMS2750) & CQI-9.  Providing real-time visualization of furnace compliance through cloud-based and mobile software, C3 Data's solutions are streamlining pyrometry testing processes to drive efficiency and provide peace of mind, knowing furnaces are qualified and audit-ready.  http://c3data.com
